NUMBER 14

CIRCLEDALE, O., June 21.—Yesterday afternoon Willie Ross, a bright young boy, died from the effects of a severe fright. He was employed on the farm of Thomas Rader, where his new acquaintances determined to test his nerve by a "redneck" game. Ross was sent down to close the doors. He was in the act of doing so when Rader rushed upon him. He turned to fly, and as he did so another one of the party discharged his revolver into the air. Ross ran like a deer but fell over something and injured himself so that he died. The doctors here thought he was almost dead beside himself with grief over the unexpected result of their sport.

THE HERALD.

SPENCER COOPER, Editor.

HAZEL GREEN, KY.
THURSDAY, June 27, 1895.

A DEATH WARRANT has been signed for the execution of "Bad Tom" Smith at Jackson Friday of this week.

JAMES SANDERS, colored, who killed his wife, was lynched by a mob of whites and blacks near Port Gibson, Miss. It is reported that the daughter who took part against her mother in the fatal quarrel, will also be hanged.

It is significant that the Republican National League never discovered it had no right to make a declaration of principles until confronted with the silver question. Heretofore the league at all its meetings has been loud and long in the proclamation of its resolutions. Its dodging the issue at Cleveland is in accord with the Republican party's silver record.

JUDGE M. C. SABLEY will try at the next term of the Garrard circuit court an action for breach of promise brought by W. C. Stivers against Miss Catherine West. The Judge proposes to try the case before a jury of women, which he can do under the new constitution, and he pleasantly suggests that if he cannot secure a jury in Garrard county he will send to Mercer for one.

Our little neighbor across the hill (the Herald) published at the village of Hazel Green, got badly in the brush last week. This road fever which has been an epidemic in Wolfe county has passed few months has upset the brain of our friend Cooper, and unless there is a radical change very soon he is a gone goblin.—Morgan County Messenger.

Come off! O, come off! You make us weary. THE HERALD's brain is as clear as a silver bell. True, we are slightly disfigured, but we are still in the ring, you bet.

The general council of Philadelphia, at its session last Thursday, decided by a unanimous vote to send the Liberty bell to Atlanta. Some months ago the management of the Exposition asked for the bell, but the request was refused. The matter has been put to the Philadelphia council in a new light since the legislature of Pennsylvania decided to make a state exhibit at the Cotton States and International Exposition, and this unanimous action of the council in favor of taking the Liberty bell to Atlanta was the result.

Our esteemed contemporary, the Morgan County Messenger, got its back up last week at what its "little" contemporary, THE HERALD, had to say in connection with the Legislative race now on. She says we should "honestly represent the conditions and circumstances as they are known to exist." Now THE HERALD has nothing to take back. "What I have written I have written," and we are satisfied that she spoke the truth when we said that the situation in this immediate section led us to the conclusion that James B. McCraw did not stand a ghost of a show for our people's suffrages. For the truth of this statement the people will inform us on the 27th.

As to the primary election in preference to precinct mass meet-

ings we were for the former and are yet. Everybody knows that it is the only way to get the correct expression from the people on any question. People are tired of being elbowed and bulldozed around by the so-called "leaders" at mass meetings and the Legislature was aware of this fact when it enacted the primary election laws. We leave off as we began. We are for the primary first, last and all the time.

We asked some one the other day whom we supposed in a position to know, what was the secret of the success of the school at Hazel Green. He replied: "We hire the best teacher that we can afford, and if we find him incompetent we fire him. If complaints are going about, we investigate them and place the fault where it belongs. Both the patron and the teacher are notified, and if the complaint is unjust the complainant is informed that he is in the wrong; if the teacher is to blame he is told to correct the fault or give place to another."—Clay City Chronicle.

The foregoing in the Clay City Chronicle seems to be going the rounds of the press. We do not know who the informant was, but this we know, that he is not informed about our school, if he means the Hazel Green Academy, for the patrons have nothing to do with employing teachers, and nothing to do with investigating faults any more than the patrons of any college or university have to do with such things. All the patrons have to do is to send their children if they wish, or they can keep them at home. The Academy is run upon a high plan, and it finds patrons because of the thorough work done by its teachers. As to our public school, it has a different teacher each year, all due to who the trustees are. If the person who wants to teach the school, is successful in electing his man trustee, then he gets to teach the school, otherwise the other fellow gets to teach it. In five years there have been six different teachers in charge of the Hazel Green public school, which of course ought not to be.

R. G. DENN's Review of Trade says: "From all parts of the U. S. the best advice obtainable tell of the rising tide of trade and industry which threatened here and there to amount too far and too fast. The volume of all business is by no means equal to that of 1892 as yet, though in some important branches it is larger than in that or any other year. Two influences of tremendous power contribute to the rise, the encouraging crop news and the confident replenishing of stocks which have been for two years depleted to the utmost. Excepting the too heavy rains in Texas, the crop reports recently have been highly encouraging. Future injury to cotton cannot be predicted but as yet nothing indicates a yield below 7,500,000 bales, which is not supposed to threaten a famine if commercial and mill stocks were remembered, now exceeding by 2,500,000 bales, full consumption until September 1st.

The receipts continue small and consumption close to maximum here and abroad, though the marketing of British goods is not entirely encouraging. Liberal purchases of all products by the South do not indicate the belief that any serious misfortune impends. So the strong trend in wheat-growing states, accordingly with brighter crop prospects. Reports from spring wheat and from the Pacific coast are so cheering that although the loss of winter wheat was large those whose estimates have been the most accurate in recent years, now vary in predictions from 490 to 470 million bushels.

"What is the Christian Church?"
"It is a body of Christians whose organic union is the result of an earnest and prayerful effort to ascertain and embrace all that is essential to the conception of the Church of Christ, and at the same time to repudiate and reject all that partakes of the nature of a sect."
"It is a product of an attempt to restore the faith and doctrine, the precepts and ordinances, the worship and spirit of the original Apostolic church, as it existed and flourished before the birth of sects, and before the introduction of speculative and misleading doctrines."—J. S. Lamar.

The following table of "Growth of Churches" has been arranged by the Independent, and shows the growth of the several churches during the four years ending Dec. 31st, 1894. It has taken the pains to calculate the percentage of increase and decrease in the number of communicants. The result is as follows:

Friends (four kinds).....	71	Unitarians.....	71
Dunkards (four kinds).....	143	German Evangelical Protestants.....	627
Baptists (43 kinds).....	581	Lutherans (18 kinds).....	621

The above table is an interesting study, and evidently shows that the cause of Christ is spreading far and near.

Tragedy at a Picnic.
COLUMBIA, Ky., June 23.—At a picnic at Polkton this county, 17 miles northeast of this place, yesterday, Thomas and James Crockett shot and killed Daniel Kidd. All were drinking, and the trouble came up over some trivial affair. Kidd was a widower with one little boy, and was of a wealthy Casey county family. He was unarmed and was shot six times and died instantly. The two men who did the killing were also from Casey county, and they both made their escape.

Relief from Hood's Sarsaparilla
"I had kidney trouble and severe pains in my back, which was brought about by a cold contracted while in camp at Elmwood in 1892. I have been troubled more or less since that time and have been unable to do any heavy work, much less any little. I received only temporary relief from medicine. Last spring I had an attack of the grip, which left me weak."

"I consider Hood's Sarsaparilla the best medicine for the suffering."—WILLIAM A. BAKER, North Pembroke, Mass.

Rev. W. F. Lykins will preach at the village school house next Saturday at 4 p. m. and Sunday following at 2 p. m.

A good appetite and refreshing sleep are essential to health of mind and body and these are given by Hood's Sarsaparilla.

The track at Ezel is in tolerable shape and the good people of the little holy city enjoy splendid racing every Saturday.

Dr. Taulbee reports Mrs. Elizabeth Williams and Mrs. Sam Cecil very ill. He also reports 40 patients under treatment.

The Hazel Green Herald says: "The stockholders of the Hazel Green Fair Association have decided to hold no fair this year, and in our humble opinion, they have acted very foolishly, indeed." Courier-Journal.

Miss Maggie Kash left Friday for Jackson to visit her sister, Mrs. Floyd Day, a lengthy visit. Though Jackson has many gay young fellows, no one believes Maggie will ever forget that blue eyed Snaggle, of Stanton.

Dr. Lockhart and George Good, of Ezel, were in town last Saturday. The doctor is a fine horseman and is much disappointed at the prospects of having a fair this time. The company seem to think times too hard to have a successful meeting.

Monroe Stamper, of near Daysboro, brought to THE HERALD office some specimens of wheat that he raised on his farm, which is probably the finest ever raised in the mountains. From one seed 26 stalks have grown, and the mash is well filled.

Last week saw nice headstalls of tobacco leave our town for the Louisville markets. While our mountain land will not produce any heavy tobacco it will grow a good quality and it will always sell for cash. There are several good crops being raised in this community this year.

Dr. S. H. Hoff has decided to prolong his stay in Hazel Green and will be at Miss Kash's during the whole of next week. This is an exceptional opportunity for those who wish to have their teeth filled or those wishing a plate made or repaired. He extracts teeth by a method entirely painless.

Amanda Ellen Brooks, the blind daughter of Dr. Brooks, who has been a pupil at the Blind Institute, at Louisville, returned home last week. Prof. Wm. H. Cord and wife, and little son Robert, will leave Friday morning for Mason county, accompanied by Mrs. Ireland, Mrs. Cord's mother. They will visit professor's father and mother, and relatives in Mason, and then go to Owen county. Professor will return in about five weeks, and Mrs. Cord the first of September in time to resume her work in the school room.

At Grassy Lick last Sunday, was held the regular annual Baptist foot washing which is always attended by many people. The preaching brethren were Barker, Johnson, Lykins, Blankenship and Byrd. The sermons were delivered in a masterly way. The order was good and one who allowed him alcohol to go down "red line" and make him furious. He was put under arrest by Constable Lacy and quiet reigned supreme.

The wonderful success of Ramon's Tonic Liver Pills (and Pellets) in this locality during the last few months should silence all those who complain that they cannot get rid of their sick-headaches. If you suffer occasionally with biliousness, sour stomach, dizziness, etc., do not hesitate to ask your druggist for a free sample dose of this remarkable remedy. 25 doses cost only 25 cents and are worth \$25 to any one suffering from these annoying complaints.

Carrier pigeons are gifted with a wonderful and almost human instinct. A few days since, as a buggy was seen to fend its way towards town from Trenton, a pigeon soared into the air and disappeared in the direction of St. Helen. Next evening a fleetest steed covered with foam, and bearing on his back a noble Spartan youth, came dashing into town. He is now registered at the Day House, recuperating from his long and perilous ride, and praising the noble bird that attended him.

To Bee or Not to Bee.

Whether it is better to suffer the stings of Italian bees for sweetness, sake or not is a question for every farmer to consider. Billy Patrick says it is a good business enterprise and a paying one. He not only raises enough honey for his own palate but sells hundreds of pounds every year. It is his experience that requires comparatively no capital and is attended with no expense, save a few leisure hours. The whole output is a clear profit, and we can't understand why our people don't pay more attention to bee raising than they do. Billy was in town last week and sold about 600 pounds at a good price. He says that there's millions (of stings) in it.

Four Hours Sufficient for Inflammatory Rheumatism.

HAZEL GREEN, KY.

Messrs. Dalbois & Webb, Louisville, Ky.

GENTLEMEN—Through the kindness of Mr. Spencer Cooper, editor of the Hazel Green Herald, I was afforded an opportunity to try the efficacy of your "Electropoise," and I must say it acted like magic—almost a miracle to me. I was taken down with inflammatory rheumatism and in twenty-four hours my legs were swollen and my limbs caked with pain almost unbearable. I had no use of elbow, hips, knees or feet, and in this helpless condition I continued to suffer until Mr. Cooper came and offered to use the electropoise. I had no faith whatever, but, like a drowning man catching at a straw, consented to its use. In four hours the pain left my leg, to which the "poise" was attached, and I continued to grow better, and was able to sit up all day, and had not a pain about me. I resumed my business and feel as well as I ever did. I should add that about two years ago I was confined to my bed four months by a similar attack that the "poise" might have cured in four days. I BELIEVE now, and hope all who are afflicted as I was will try the same remedy. Gratefully,

F. N. DAY.

The declaration of Independence implied a necessity for a new national flag; but nearly a year passed before it was provided. All the early battles of the Revolution were fought without the inspiration of a recognized general standard. The troops of the different colonies had banners of different patterns, according to local fancy or accident. Those of New York used one resembling that of the old Dutch

It is not only the simple truth to say that the fathers could have selected a more attractive significant design. Among all flags of nations, there is not more beautiful one; nor is there one that has a more distinct important meaning. It stands the symbol of progress, the history of the world, for

Democratic Principles.—The New York Tribune quotes a remark of the editor of this paper to the effect that "the mission of the Democratic party is to show its representative character and its principles," and then proceeds to show that the party has principles and a veritable tradition in which Republicanism occasionally indulges for the purpose of showing their solid ground. The worst appear to be the

The Tribune, by way of specifying, talks of the use of the gerrymander by Democrats, a subject which one would think no respecting Republican would want to mention, in view of the fact that it has seldom or never lost opportunity to make the most outrageous gerrymanders conceivable talk of swindling at the polls without any reference to the fact that the Republicans are as proficient in that art as anybody could be, that the Republican party is the bad eminence of being the only party that ever stole the presidency.

The principles of the Democratic party are as always have been well known. They are the principles of the constitution and of the sovereignty of the people. If misguided leaders sometimes depart from them, as some men are doing in this, that is not the fault of the party and it is precisely analogous to what is happening to the Republican Party.

WOLFE COUNTY.

Lane Sayings.

Cutting wheat is the order of the day with the farmers.

John T. Graham and Wm. J. Holton went to Blackwater Saturday.

W. L. Goss and T. C. Holton went to Morgan county Friday, on business.

Frost Wood and two of his daughters of your town, visited the family of Phyllis Pence Saturday and Sunday.

The good people at Holly have organized a Sabbath school at the Balfield school house with D. B. Holton superintendent, A. J. Brewer, assistant superintendent, F. C. Holton, secretary, W. J. Graham, treasurer, W. L. Goss, Rebecca Holton, J. T. Graham and Lou E. Holton, teachers. GOOD ONES.

Flet Happenings.

The M. E. Church North are preparing to build a church house on M. M. Shackleford farm, near the place known as Antioch. They have the lot staked off and deeded, the funds raised and part of the timber cut and sawed. The house is to be 34x48 and 16 feet high.

A sad happening has agitated this section considerably for the last few days. Peter Cable, one of our best citizens and neighbor, suddenly became insane while plowing in his field. Mr. Cable has always been a man of good intelligence, robust and has led from childhood the happy life of a farmer, and the cause of his insanity is an unsolved problem in the minds of his friends and neighbors.

On the 13th inst., there passed from among us to the realms of bliss one of the oldest veterans of our county. Uncle Billy Horton, a man honored and beloved by all who knew him. He was a Virginian by birth, but emigrated to Kentucky while he was young, and founded for himself a home, and a name that commands the respect of all. He was a man of noble mind and heart, true to God, and always kind to his fellowmen. No one in need ever went empty handed from his door. The unfortunate who was impoverished with, and no one within his knowledge ever languished in sickness, but what he was ever ready to attend them in their afflictions. A tender all the assistance human hands could give. For many years he has suffered down the steps of old age, his forehead beneath the load of years, his silvery locks ripe for the harvest of the tomb, yet ever looking to God, and hoping and trusting for a life far beyond this vale of mortality. He was a roadster, (not unwillingly) the evening, and laying down his weary load on the mundane shores of time, sank to rest in the arms of God; closed his eyes upon the transitory scenes of earth life, only to open them among the grand realities of a blissful eternity. SILENT.

MORGAN COUNTY.

Raytown Missiles.

Miss Lillian Patrick is now an efficient clerk in J. C. Swango's popular euphonium.

Frank Sample, of Jonesboro, Arkansas, is visiting home folks for a short time.

Mrs. W. W. Manker has returned from a visit to her daughter, Mrs. Shoemaker at Gates Station.

Mrs. John H. Henry, of Blackwater, and Miss Eva Swango, of Clifton, were married at the residence of Mr. B. A. Childers on the afternoon of the 2nd. W. W. Manker, officiating. We extend our congratulations to the happy couple, and may their (34x48) be as blessed as the straw with the choicest blessing.

The funeral services of Mrs. B. J. Lawman, was preached yesterday afternoon, 8 o'clock, at the family burying ground by Rev. J. K. Kany, pastor of the M. E. church, of this place. The funeral was a very beautiful affair. The funeral services were held at a very early hour, and the necessary arrangements were made for the funeral, and a public invitation to

all. But be it to the shame of the few that rushed up like hungry wolves before the table could be spread, and soon some were seen crowding out with as many as three pies and more meat than they had eat in the past six months. You may call them what you please, but if they had stayed at home there would have been plenty for all. WINGLESS.

Esol Evolutions.

Burford Pieratt and wife are visiting at West Liberty.

The West Liberty nine will play the Esol nine a match game of base ball Saturday, the 29th.

Dr. Asa White Nickell has just returned from college swinging a gold medal over the entire school on anatomy.

Frank Sample, Jr., who has been everywhere during the past year, was in town last week looking as stout as a lion. J. M. Pieratt and his daughter, Lizzie, are visiting at Frankfort. Mort being a delegate will also attend the convention at Louisville, before they return.

G. W. Good attended circuit court at Frenchburg last week, and applied for and obtained license to practice law. He was examined by B. F. Day and C. W. Nesbitt.

Valley Nickell was recently appointed deputy sheriff in this county, while making some collections last week, one of the parties, a woman, became offended and gave him an exhibition of "cursing by note."

Asa B. Pieratt and G. W. Good are attending the convention at Louisville this week. Asa is a great politician and while he was getting ready to start, his policies made him feel as large as Grover, and during this excitement he put on his father's coat and did not notice the mistake until after he started.

BLURT.

Caney Cullings.

Born, to the wife of Henry C. Candill, June 20, a girl.

Wheat cutting is in full blast and never was better in this section.

Mr. Jerry Stacy is down with fever but we hope to soon see him up again.

Circuit court convenes at West Liberty next Monday, and some of the boys are now feeling bad.

There was a big meeting at Grassy Lick church last Saturday and Sunday, and after preaching they took the emblem of the Lord's Supper.

Some of the railroad surveyors got into Caney Saturday and report cutting along well, and soon hope to hear the whistle of the iron horse on Caney.

A Good Appetite

Always accompanies good health, and an absence of appetite is an indication of something wrong. (The 100-fold natural desire for food is soon followed by lack of strength, for when the supply of fuel is cut off the fire burns low. The system gets into a low state, and is liable to severe attacks of disease. The universal testimony given by those who used Hood's Sarsaparilla, as to its great merits in restoring and sharpening the appetite, in promoting healthy action of the digestive organs, and as a purifier of the blood, constitutes the strongest recommendation that can be offered for any medicine. Those who have never used Hood's Sarsaparilla should surely do so this season.)
